# Mohawk Fine Papers Manufacturing Overview

Mohawk Fine Papers, an independently owned company headquartered in Cohoes, New York, is one of very few modern writing, text and cover paper mills in America today. Mohawk operates three mills, two converting centers and multiple distribution centers throughout the U.S. A highly competitive, low-cost producer of premium papers for offset and digital printing, Mohawk is also a leader in the color copy market. Mohawk, known in the industry for its high environmental standards and sustainable practices, is the first major manufacturing company to offset 100% of its electricity with renewable windpower certificates.

In 2009, Mohawk purchased the uncoated brands of SMART Papers and is also named exclusive marketer of SMART's premium coated papers, Kromekote and Knightkote to traditional paper distribution companies worldwide.
